PM 'Debunks' Rape of German Women

Says 'Negro' Soldiers Were 'Arabs'

Claims 'Mass Rape' Pure Fiction

'NO SUBWAYS' in STUTTGART

By C. Leon de Aryan

Marshall Field's N. Y. smearsheet **PM** of July 10, 1945 carries a copyrighted story by its Jewish reporter from Stuttgart, under a July 10 dateline, claiming that Senator Eastland's filibuster speech, reporting mass rapes by French soldiers in American lend-lease uniforms was 'pure fitction' because the numbers of women raped was not 2000 to 5000 but only 1500 as the German police chief 'admits'.

The reporter, one **Victor H. Bernstein,** does not announce that the Allied Crime Commission is going to bring the French criminals to trial but belittles the 'mass rapes' because Stuttgart has 'no subways', only a huge uncompleted tunnel and underground shelters. Also the French soldiers were not Negroes, says the 'democratic' Bernstein, they were 'Arabs' from Marocco and Tunisia and raped the women one by one, or two by two's, not 5000 en masse.

American women must be happy to know that their war bond money paid the 'Arabs' to 'liberate' the German women from the 'Nazi horrors' and that the French soldiers are heroes, not criminals subject to Judge Rosenman's and Justice Jackson's war crime commission.

Following is a portion of **PM's** account that justifies rapes by colored troops and demands no punishment for it because 'liberators' can do wrong where America pays for the crimes with 'lend-lease'.

Story of Mass Rape at Stuttgart Pure Fiction

SEN. EASTLAND'S CHARGES DEBUNKED BY THE FACTS

By Victor H. Bernstein

(Copyrighted, 1945, by the Newspaper P M, Inc.)

STUTTGART, Germany, July 10,—I came here to check a charge made by Sen. James O. Eastland (D., Miss.) last week on the floor of the Senate that Senegalese troops of the French Army had 2000 to 5000 German women in the Stuttgart subway and raped them for four or five days.

I don't know where Sen. Eastland got his story, but it must have been—to reverse the customary newspaper phrase—from unusually unreliable sources. There is no subway in Stuttgart. There never have been more than a bare handful of Senegalese troops here, if any at all. And I failed to find a single soul in this city, either Americans or French, or Germans themselves—including the German chief of police—who had ever heard of any mass rape of the kind the Senator described as **having occurred either in the non-existent subway** or non-existent elevated or anywhere else outside the brain of the Senator's informants.

STUFF FOR FABLE

There do exist certain elements in the situation which, worked upon by fertile and evil imagination, could have given rise to this fable which the Senator reported as fact.

For instance, while there is no subway in Stuttgart, there is, as in most large German cities, **an extensive system of underground shelters, including a huge unfinished tunnel through one of Stuttgart's many hills, capable of holding 12,000 to 15,000 people.** If Senator Eastland wants to refer to underground shelters as subways, I don't suppose it is a capital offense; but whether subways or shelters, there is no evidence they were ever used as wholesale brothels.

What Sen. Eastland referred to as "Senegalese" are Tunisians and Moroccans who formed the great majority of the French forces which took the city from the Germans after a hard siege. The Tunisians and Moroccans are not Negroes, but Arabs; and their only resemblance to American Negroes is that they are also an oppressed people.

SOME FIGURES

A third fact, which undoubtedly contributed to Sen. Eastland's exercise in fancy, is that unquestionably there was a lot of raping going on in the first few weeks of French occupation.

Americans to whom I talked put the figure at "a couple of thousand." The German police chief put the figure at 1500, and he ought to know.

In any case, I must report, to the Senator's undoubted discomfiture, that whatever rapings there were happened one by one, or two by two, which is in strict accordance with white man's tradition. As evidence, I cite the behavior of certain white troops on all fronts in this and every war in history.

I don't mean here to defend the rape record of the French in Stuttgart. **Most Americans to whom I talked**—there has been a special detachment of Americans here since a fortnight after the French took the city on Apr. 20—are **inclined to blame French officers, who they say, either were incapable or did not try to control their men.**

The facts are that the Arabs, are, in essence, commercial soldiers; they have no country to fight for and no ideals, and a home background which consists largely of poverty and ignorance and oppression. What has been happening in Syria for the last couple of months is a perfect symbol of French policy toward colonials.

SORDID BACKGROUND

Moreover, the whole spirit permeating the French forces in Germanw, certainly at first was one to encourage looting and raping. I do not say this in disparagement or approval; I say it is a fact. The French hate the Germans with an intensity which Americans, whose homeland has never been invaded and who have never suffered under the Nazi yoke, can never hope to understand.

* * * *

What is 'Pure Fiction' ?

If the mass rapes of Stuttgart were pure fiction because a soldier can rape only one woman at a time, according to **PM's** high standard, then the atrocities at Buchenwald, Dachau and Maidanek were equally pure fiction, measured by the same standards of propaganda.

The very serious question arises whether at the Nazi concentration camps the dead were piling up faster than they could be buried or burned, because the Yank bombers had destroyed the incinerators and also the sewer and water systems. If the Yanks had destroyed public utility services and disrupted sewage disposal then the results must have been appalling. Typhus and dysenteria, which was common among Jewish-Polish prisoners, must have increased to an epidemic that in a few days piled up the dead en masse, just as the bombings killed hundreds and thousands en masse. The best the Nazis could do under the circumstances then, would have been to pile the dead and the infected dying away from the others in a futile attempt at stemming the further spread of the epidemic.

We don't in the least hold briefs for the Nazi persecutions and inhumanities. We know too well what sadism does in the shape of police morons. We have suffered at the hands of European and American jailers and they are all alike.

Regardless of the infamous lies spread by the Anti-Defamation League of the Jewish B'nai B'rith, our sympathies are with the victims of Nazi, Soviet and British concentration camps, regardless of race and creed, as much as they are with the German girls who were victimized in this war, and all women victims on both sides.

War is horror-hell and all who take part in it are criminals, as well as all who finance these mass crimes.

Senegalese Outrage True, Senators Say

WASHINGTON, July 17,—Four senators in joint debate gave support to the charges originally made on June 29 by Senator James Oliver Eastland of Mississippi that French Senegalese troops prepetrated mass criminal assaults on German women after the capture of Stuttgart. Eastland charged that the Army is "covering up," and demanded:

"The Army's information headquarters should play fair and square with the American people. Our people have a right to know the facts. The only reason for censorship in a free country is to withhold information that would be helpful to the enemy. There is no reason for censorship in this case because the war with Germany is over."

CHARGES DENIED

The Mississippi Senator read into the Congressional Record a number of newspaper clippings denying his June 29 charge by French officials, American liaison officers with the French troops under Sixth Army Group Command and private investigators.

Senator Burton K. Wheeler of Montana declared:

"I was chairman of a delegation of four Senators—a different committee from that upon which the Senator from Mississippi served, and one General told another Senator of my delegation, in my presence, of the Stuttgart affair recounted by Senator Eastland.

"It was recounted as a mass rape by French-African troops and as I recall it, the General said 2000 white women—German women— were lined up in a tunnel and made available to these troops. The General said one German doctor told of being forced, at gunpoint, to watch the ravishment of his wife and daughters."

SENATOR'S STORY

Senator John L. McClellan of Arkansas, interpolated at one time:

"I received the same information that has been given by the Senator from Mississippi from two sources. The truth is that it was almost common talk in Europe at the time."

Senator Chapman Revercomb of West Virginia said:

"I did not intend to make any statement on this issue at this time, but since a denial has been made of the charges made by the Senator from Mississippi, I think it is only fair that I should.

"While in Europe as a member of the Senate military affairs committee, a high military authority did make a statement concerning the ravishing of German women by French Colonial Negro soldiers. The figure I heard was 5000 women. The facts were substantially as recounted by the Senator from Mississippi."

Senator Burnet R. Maybank, of South Carolina, said:

"I should like to say, as a member of the committee that I heard more or less the same statements which the Senator from Mississippi has made. I believed that at the proper time the Army would make a statement about the matter. But as a member of the committee I believe that in justice I should say I heard the same thing."

CIO Guild Suppresses Negro Rape News

UNITED STATES SENATE

Mr. Kurt Mertig, Chairman
Citizens' Protective League
317 East 54th Street
New York, New York.

My Dear Mr. Mertig:

Your open letter to the Members of the United States Senate of the 79th Congress, dated July 1, was very interesting indeed, even if it is disgusting and heartbreaking.

I have just received a letter from a party out in California where the negro population has flooded that area, and the doctor of the little town testified that there had been twelve white women raped in recent months with no newspaper publicity. This confirms your conclusions in this very valuable statement that you have given me.

Again and again I insist that the only solution to this race problem is resettlement of the Negro in his fatherland, West Africa, and as soon as this war is over I will re-introduce my bill for this purpose and push it for passage. Conditions are going to be so bad in this country when these negro soldiers return until there will be a real demand for my program to voluntarily resettle the Negro in West Africa.

Again thanking you for writing me, I am

Sincerely yours,
THEO. G. BILBO, U. S. S.

French Goums Quit Stuttgart Yanks Move In

STUTTGART, Germany,—American occupation troops have moved into Stuttgart and taken over from the French forces quickly and smoothly—without any repetion of the diplomatically delicate "affaire Stuttgart" of 10 weeks ago, when the French stubbornly refused to get out.

This time the French—still the same 3rd Algerian Infantry composed of **dark-skinned Goums** in flowing robes—moved out without a murmur, and the Germans welcomed the better-disciplined Americans with obvious relief.

Who was Governing the U. S. A. while FDR was Incapacitated ?

By Osborne Mitchell

YOUNGSTOWN, O.,—Congressman Earl R. Lewis of St. Clairsville, O., one of my close friends, regularly issues to his constituents a short news letter. His news letter of July 2 contained a paragraph regarding the health of the late Franklin D. Roosevelt, as follows:

"The facts concerning the late President Roosevelt's preelection physical condition were finally revealed in Washington during the past week. He had had several strokes prior to the one which proved fatal. He was first stricken in the late summer of 1938 at Rochester, Minn., more than six years before his fatal attack. He was then at the Mayo clinic. During the following years other light attacks occurred. The first serious stroke came in late 1943. . .The President's health was a closely guarded secret, even though Dr. Howard Gerald Bruenn, a New York City heart specialist, was commissioned a commander in the navy late in 1942 for the express purpose of watching the President's physical condition. Bruenn was with him when he died. The President suffered considerably and **was unable to fulfill the duties** of his office for many days at a time. He took long, secret vacations and spent much time at Hyde Park while affairs of the nation drifted along. On Palm Sunday, March 25, the President had a cerebral hemorrhage at Hyde Park. He survived the stroke and was quietly rushed to Warm Springs, Ga., where, 19 days later, he had the fatal stroke."

If Congressman Lewis' statements are correct, and I have not the slightest doubt of their truth, it seems to me that the information respecting the true condition of the health of the late President is about the most important information which has been released for a long time.

How does it happen that a man suffering from repeated strokes could conceal his condition so successfully for a long period of time, **unless there was a tacit agreement among the newspaper men to suppress the facts?** That is the first question which occurs to the reader.

On reflection, however, another and more terrible question arises, namely, **who has been really governing the United States for the last six or seven years?** Who has been making the decisions? And what about the good faith of the political organization which would put forth as a candidate a man over whose head hung such a sword, assuring the American people that he was in every way worthy to be commander in chief?

German Women Prefer to Marry Germans

ARE NOT PROSTITUTES FOR TRANSIENT YANKS AND TOMMIES

WITH 21ST ARMY GROUP IN GERMANY,—German girls who were most willing to flirt seem to get a kick now out of a little non-fraternizing policy of their own.

They ignor American and British soldiers who sidle up to them for a talk, and stubbornly refuse to return a smile.

Girls who used to make themselves conspicously tempting to passing soldiers now promenade with German men.

The German men—many of them newly demobilized soldiers wearing uniforms altered to resemble civilian clothes—have appeared in greater numbers than ever before for escort duty. They lock their arms around the German girls and swagger by.

How the Next War Will Come

SECESSION FROM THE LEAGUE

EVANSTON, Ill.,—Now that we Americans are going to be outvoted 10 to 1 on the so-called security council, what will happen to us when a future American congress decides to secede from that central body? Will some foreign one-worlder posing as a Lincoln decide that once within the world organization there may be no secession?

Will our children be taunted as world rebels when they decide to defend their native land against the hordes of one-worlders that are bound to swarm in upon us? Will the next war be a repetition of our Civil war with a one-world taint? If the 10 to 1 alignment against us finally does attack we'll need all the heavenly help that can be spared, because we're getting very little here on earth.—Albert Klinger

Estimate Puts F. D. R.'s Estate At 2 Millions

POUGHKEEPSIE, N. Y.—The late President Roosevelt's estate was estimated at 2 million dollars by interests closely identified with his family here.

His personal fortune was placed at $900,000 in cash, stocks and bonds, and $100,000 in real estate, with another million dollars inherited from his mother contributing to the total.

Soviets Robbed GIs They Freed

WASHINGTON, D. C.,—Charges that the Russians stripped American soldiers they liberated from German prison camps of watches, wallets, and clothing before releasing them to American jurisdiction were made in the house by Rep. Wilson (R., Ind).

Wilson, just returned from an overseas inspection tour, declared GIs whom he interviewed after their liberation from German camps by Russian armies told stories of soviet treatment that "would make the hair stand on your head."

"These boys," he told the house, "spent months and months in German prison camps where they were allowed to keep their wrist watches, finger rings, fountain pens, wallets, and so forth.

ALL POSSESSIONS TAKEN

"Upon liberation by the Russians, these boys were searched and practically all these personal possessions were taken away from them. The Russians even took their much needed overcoats and blankets necessary in that climate. Our boys were very much disturbed over that kind of treatment by an allied country."

Why Russians Rob Yank Prisoners

The American public, being provincial and not cosmopolitan travelled people, with correct knowledge of conditions among human beings on this planet, easily fall prey to distorted picturing of far reaching incidents. In the first instance one must remember that the average level of public intelligence is 12-year old and less, not more. The exceptional people are those who think. It is bad enough in the U. S. A. but much worse in the rest of the world.

The reports are now being verified that when the Russians "liberated" Yank prisoners of war from Nazi camps, the Russians robbed the Yanks of wallets, watches, clothing and trinkets which the Nazis had permitted the Yanks to keep. Many Americans get excited over such conduct. Fiddlesticks!

What did really happen?

Industrially speaking, the Nazis controlled a very rich people in Germany, by Russian standards. The Reich produced plenty for home consumption and for export. Because of it the British Jews of Rothschild & Co., Un-Ltd., who controll world commerce, decided to inveigle Germany into a world war into which finally the U. S. A. would be dragged in to destroy Germany. The Rothschilds always make money out of wars. They financed the war against the Colonists and have been at it ever since.

Compared to Germany, the Russians are Mongolian savages. Stalin started his career as a bank bandit. With all of the 5 and 10 year plans in Russia, Hitler would have conquered the U. S. S. R., but for American lend-lease. Therefore, every Yank must be a millionaire. What does he need a wallet, a watch, clothes or trinkets for, to take back to America??

America ships it out by the boat loads, donates it to the Tovarishes by the billions, so why take these things with them, when the millionaire Yank goes home to the fabulous land of plenty?

The childish minds of the poverty stricken Soviet-slave-savages figure naturally that Yanks can do without, temporarily, while the Russian soldiers will not again in a life time have a chance to own a watch under Stalin's regime. Why, then, let the Yank "carry coals back home to Newcastle?"

To my friends, the anti-Semites, I wish to say a word of enlightenment. The poor Jews are just such savages like the Russians. They all are of the same Mongolian-Tartar stock. They are product-poor. That's why they hate Germans.

Product-poor people are like starved people. When they can eat they gorge. Hence Jews spread like locusts and devour all they can. Their mind works exactly like that of the Yank-robbing Soviets. They grab while the grabbing is good and consider stealing a high degree of smartness. Once we realize who the Jew really is we will no longer wonder why he acts as he does. Scratch a Jew and you'll find a Tartar or a Negro. Hence they make good Commies.

The Nazis did not steal the wallets, watches, clothing, trinkets of the Yank prisoners because the Germans are as productive as the Americans. But the product-poor Soviets naturally live like locusts.

In the U. S. A. we leave valuable cars in the streets overnight, and show-windows are not broken in, inspite of valuable displays. Productive people don't rob each other, they trade and produce more. Savages live by looting.

A Birthday Vacation

I am planning to celebrate my 60th birthday with friends who live at a distance from San Diego. To do so I shall take a vacation whether I can afford it or not. I cannot afford not to take it. Was born on Aug. 18, 1886 and 59 years of opposition to hell on earth is a long battle. Since I have friends who care for my company I might as well enjoy it while I am alive.

To take a 10 day vacation means a lot of extra work to prepare for the regular issues of The Broom that no interruption take place. All this costs money which I do not have. But I am going to do it anyway.

Those of my friends who usually send in birthday gifts with their congratulations can help me by sending them early. Then I'll be able to pay the printer even though I won't be working. When I return I'll have to catch up on all the work anyway since nobody helps me, with Fred's absence at his studies in Los Angeles. The issue of Aug. 20 will come out earlier, while Aug. 27 will be later than usual. So you won't worry why it failed to arrive on the dot.

Secretary Vinson

Fred Vinson, who is soon to succeed Henry Morgenthau as secretary of the treasury, was such a favorite of President Roosevelt that within the last two years of his life he made it possible for Mr. Vinson to be successively a high federal judge, director of economic stabilization, successor to Jessie Jones as head of the federal loan administration, and, finally, the successor of Jimmie Byrnes as "assistant president" or head of the office of war mobilization. Upon replacing Mr. Jones, Mr. Vinson said "This is not a change of administration. It is still the Roosevelt administration." With one so much approved by the late President succeeding Mr. Morgenthau at the treasury, it would appear that "it is still the Roosevelt administration."—Chicago Tribune.

Robert Noble Writes A Letter

July 4th Uncle Sam's Bastille, D. C.

Dear Folks:

As you know Ellis Jones and I, Robert Noble, were arrested March 31, 1942 by the FBI. We have been in jails and prisons ever since. We were arrested in Los Angeles and since then have been dragged pretty much all over the country in shackles. For the last year and a half we have been here in the District of Columbia Asylum and Jail. Now, I want to write this in the third person, for we find our present situation astounding, and someone may want to use this but I don't think I should be directly quoted.

KIDNAPPING A' la ROOSEVELT
"BIDDLE-EICHER" ROGGE, et al.

Many members of Congress have accused the New Deal administration of flouting the laws of the land, of running rough-shod over the rights of the people without regard to the laws of Congress and the Constitutional rights of individual citizens. James J. Laughlin, prominent Washington attorney, as reported in the Chicago Sunday Tribune of July 1, 1945, accuses the perpetrators of the so-called Sedition trial and the preceding three indictments, of violating the constitutional rights of the various defendants.

The following day in the United States District Court for the District of Columbia before Justice Morris, Mr. Laughlin in a hearing concerning Robert Noble, one of the so-called sedition defendants, brought out the astounding fact, that Noble, Ellis Jones and the other defendants who are held in the District jail, have all of these long weary months been held illegally in the jail here. In fact that they were kidnapped and brought here without due regard for the proper legal processes. M. Laughlin dramatically pointed out to the court that Noble (and the same is true of the others) had been brought from the U. S. Penitentiary at Lewisburg, Penn., by U. S. Marshals who had no authority whatsoever to move him, in that, the legal instrument that they presented to the Warden at Lewisburg was of no legal value in the state of Penn., and in fact was no good outside of the District of Columbia.

The paper was issued by the late Chief Justice Eicher of the district court, who handed us all so roughly last year without any regard for our constitutional rights, on up until the time he dropped dead in November. Throughout the entire preceedings last year we accused him of just such practices. And now it has been determined this is true and that actually he ordered us to be brought here when he had no color of authority whatsoever for doing so. For he was not able to have issued by his court any writ which has effect outside of the District of Columbia.

On Friday, June 30th, the Bureau of Prisons or Dept. of Justice attempted to take Noble back to Lewisburg, without the slightest warning to him or his attorney Mr. Laughlin; but Mr. Laughlin learned of it and got a court order keeping him here. Then on Monday July 2nd the great O. John Rogge, Special Asst. to the Attorney General, came into court and tried to pull the wool over the eyes of the judge. In fact the judge seemed to think the matter so important that he set aside all of the business of the court and heard this matter first saying that it had "high priority".

When Mr. Laughlin got thru with his argument, which he made extemporaneously and in which he reviewed the entire series of kidnappings of which there has been three since Noble was arrested, and then all of the actions of the California courts in reversing the Sacramento convictions where Noble and Jones with seven others had been sentenced to five years in prison, giving each date as they followed in sequence of all of these actions that bore upon the question before the court—when he had finished the judge did not disagree with him on the status of Noble at the present time, that is, that he is being held illegally and was brought here illegally. And neither did Rogge, in fact they both in effect admitted that it was true, that Noble (and same goes for all the others in the district jail who were in the so-called sedition trial) had been kidnapped and brought here and forced to go thru a long months length trial, while all the time he was being held illegally. What a situation! Mr. Laughlin in a long letter to the new Atty., Gen., Tom Clark, charged that Biddle, Eicher, Maloney, Rogge, and company had done just this sort of thing, violated the constitutional rights of the various defendants and that they should all be indicted and tried for this violation of the laws of the land. Why not? Certainly public officials who under color of their official positions violate the law should be severely punished, more so than a private citizen.

Now, understand what this situation means; if the proper legal procedures had been taken Noble and all of the other defendants in custody would have been taken before U. S. Commissioners and there afforded an opportunity to fight removal to the District of Columbia. This is what Mr. Griffin, publisher of the New York Inquirer, did before the U.S. Commissioner in New York, in an extended hearing that lasted several months. This gave him the opportunity to show up the charges as being ridiculous and as a consequence he was left out of the third indictment, the one the government went to trial on. (To be continued)

Slain German Captives Buried With U.S. Honors

FORT DOUGLAS, Utah,—With fellow countrymen looking on, eight German prisoners of war killed in a burst of machine gun fire by an American soldier were borne to their graves.

A Protestant United States army chaplain gave the prayer and a half dozen guards from the Ogden prisoner camp fired a salute.

Pvt. Clarence V. Bertucci, 23, of New Orleans, La., who turned loose the machine gun from a guard tower at the Salina prison camp Sunday, is confined to Bushnell General hospital for examination.

Twenty other captives were wounded as 250 bullets whizzed thru their tents as they lay asleep.

ACTION DELAYED ON CHARGE OF SLURRING F. D. R.

EAST CHICAGO, Ind.,—John J. Dreesen, president of the school board, yesterday called off a school board meeting scheduled to take final action on the demanded resignation of Miss Nellie L. Mills, veteran high school teacher, accused of slurring the late President Roosevelt.

At a meeting two weeks ago Dreesen and George Grimmer, Democratic board members, voted to cancel her contract, but gave her the choice of resigning to protect her pension rights. Michael Havran, Republican member, voted for Miss Mills. The audience of 50 booed the action of Dreesen and Grimmer.

It was reported that the last meeting was canceled to avoid a possible repetition of the public protest, and that another meeting would be called when attendance likely would be small. The Democratic board members also were reported planning to demote A. C. Senour from school superintendent to teacher. Senour previously had cleared Miss Mills of the Roosevelt slur charge. Miss Mills, who denied the accusation, is expected to carry her case to court.

How Worlds Are Created

If you and your child went to the South Seas and he asked you, mother who made these coral islands? What would you reply?

The lazy thing is to say, God, and cover up your ignorance, inspiring great awe in the little one about the power and activities of God. But you leave him thoughtless and in later life he becomes a victim of ruthless exploiters because he knows not the details of how "God is doing things," thru others.

So if I were along with your party in the South Seas and your little boy asked who made the coral islands, I'd tell him that it was tiny little animals who built it. He'd look at me and at you, and then you'd be in a pickle for little Jim would ask: "Is God a lot of tiny little animals?"

Since you could not deny that I told the truth, you might give me a censoring look of exasperation for having butted into your family affairs, while I would smile and wait to see what other fable you'd invent to cover your laziness and ignorance. You are a mental idiot, therefore you make God a slave and let Him do all the dirty labor in the universe so that the child properly asks you: "Is God a lot of tiny little animals?"

Then you might say, God made the coral mollusks, therefore He made the coral islands.

Well, God neither made the mollusks nor the islands, anymore than God made your little boy.

The little boy is Self-made and you and your husband furnished the material and the laboratory. Your womb is the laboratory, the factory, and you need not blame God if a child is born with some defect.

No, my little boy, the coral islands were made by little animals and they keep on building more. And so this earth was made by you and me, it is exactlly the residue of our activities in life as the islands are the residue of coral-mollusk life and action. And little boy, God did not make you. You made yourself. so if there is something you don't like about yourself, don't blame God.

You are eternal, my child, as eternal as God, because you are of the essence of God, you are Life, Consciousness, Will, Power and you produce all the substances that finally materialize and appear as suns and planets.

We, you and I, made all these worlds just as the mollusks made the islands. We still shape the nature of worlds. We are making a hell of a mess just now and ruin and murder and plunder and waste. It is not God that is doing it, it's us and the responsibility for everything we meet with is ours. God is the essence of Infinite Life, but we are the makers of existing conditions, we are free beings with complete responsibility.

Wise Suggestion

In all the discussion relating to peace-time conscription no more wise suggestion has been made than that by Rep. Joseph Martin (R-Mass) who urges that we take world leadership in curbing all peace-time armies.

Instead of nations trying to see who can train and sustain the largest army and navy let them vie in efforts to prevent the support of large military establishments. —The Tribune Sun, San Diego.

Subject: **Emancipation of Women by Congressional Action**

Dear Ladies of the Congress:

With some 434 seats in the House and 96 in the Senate available to women, we find that only eight have made the grade in the lower chamber and none in the upper house. These figures are rather startling when we consider that outside of Congress women out-number men.

I inquired of several well-informed women the number of ladies in Cohgress. Some of those questioned didn't know of any, others thought that there was one, but the editor of the Alnanac had the dope and that's where I got the correct spelling of your names.

It has often been alleged that women are smarter than men, but no proof has been submitted. Not since the days of Carrie Nation has there been a real up-and-coming leader from the ranks of the fairer sex.

Preceding enfranchisement of women in 1920, we were told what a wonderful country this would be as soon as women were allowed to vote. What a delusion that prediction has proved to be. An examination of the record reveals that:

1. Nine years of woman suffrage gave us the great depression of 1929.
2. Twelve years of woman voting gave us the new deal.
3. In seventeen years we adopted the philosophy that the United States should mamma all of its citizens from the cradle to the grave.
4. In ninteen years we became so advanced in business technique that $4000 could pay back a $200,000 loan.
5. In twenty-one years woman suffrage became of age and with it came the great war.

In addition, we are now attempting to demonstrate to the world that the way for a nation to become great is to give away everything its people own. Experience of the ages has taught us to keep out of other people's quarrels, that is, if we wish to get along. All of a sudden we find that this theory is all wrong and the proper thing to do is to mess in all the trouble we can discover. Woman, what hast thou done to the thinking apparatus with which the men of this country were once so richly endowed?

It would seem that we made the mistake of granting women political emancipation before we gave them mental emancipation. At this late date we can provide for the latter and possibly within a few generations overcome the terrible mistake of 1920.

The program which I wish to suggest has great possibilities for career-women politicians. The fortune of any officeseeker is made if he or she can find some group which is strong numerically and weak mentally, and then point out to that segment of our voters some real or imaginary grievance which he or she proposes to correct.

Women should be an ideal group to work on, as they seem to possess the requisite qualification. The plan of action should be as follows:

All of you women in Congress make speeches telling the women of the Country how terribly they are treated in our Holy Bible. At first they will be greatly shocked, because they were told in childhood what a great Book it was, and being believers instead of thinkers they still fall for it. Not one in a hundred knows why they believe it. And you can point out that the acceptance of this ancient Jewish book is the main reason for their dumbness. I have no means of knowing whether or not you ladies of the Congress know any more about the Bible than the average run of women, but my guess prompts a negative conclusion.

At the same time you start your speeches against the hand-out given to women in the Bible, jointly introduce a bill in Congress providing for a revision of our sacred literature. The preachers dare not suggest the subject of Bible revision for in so doing they would have to admit that God was goofy when he wrote the book, and furthermore the dumber people are, the better the preachers' business is.

To show the necessity for changes in behalf of women, there is attached hereto "Exhibit A", giving but a very few suggested alterations which would uplift women. If you like my work as a "reviser", I shall be glad to do a complete job, provided, of course, that your proposed bill would carry an adequate appropriation of $25,000,000 or more. In my work I should have to consult a great many rabbis, preachers priests, bishops, etc., to find out just what God meant to convey; and you must not forget that these men are high-priced, too.

May I suggest that you girls get busy on this matter right away and thus do our country much good by bringing about the mental emancipation of the weaker sex. Delay on your part might result in other rabble-rousers' stealing your thunder and beating you to it.

Understand that I am not blaming you sweet ladies for everything, but the combination of the crooning radio voice of schemeing and unscrupulous male politicians, promising again and again and again, plus the voting of unintelligent women who love to be buncoed, has raised particular hell with our country .

Sincerely yours. RANK C. HUGHES.

THE KENT CASE

Dear Mr. de Aryan:

Some one sent me the enclosed circulars which I forward to you. If you hired someone to look after your affairs and paid him a salary for so doing, would you not be entitled to know what he was doing? Then why are we not entitled to know what our public servants whom we elect and to whom we pay a salary are doing?

C. Hartley Grattan in **The Nation** of July 27, 1932, showed how Wilson was committed to war in March, 1915, yet he won his election on the slogan, "Vote for Wilson because he kept us out of war."

Were Roosevelt and Churchill maneuvering to get this country into war at the same time that Roosevelt was assuring the people "again and again and again" that our boys would never be sent to a foreign war? Evidently Tyler Kent thought so, and if he was not correct in his conclusions, why was it necessary to try him in secret in a British court and send him to prison over there? If he was wrong, why are not the contents of the cables made public and then try him in an American court for telling the contents of the cables to Capt. Ramsay? It would then be possible to judge of his motives and would also let the American people have a chance to judge the foreign policy of our President. You know that very capable people have said that we were in the war from the time we passed the Lend-Lease, instead of when we were attacked at Pearl Harbor.

You know Mauritz Hallgren in 1937 in his book, "The Tragic Fallacy" told us how the President with the foreign policy in his hands, which he could keep secret, and being Commander-in-Chief of the Army and Navy could maneuver the country into a position where Congress had to declare war.

Sincerely yours, —MAUDE S. DeLAND.

AMERICAN PEOPLE'S RIGHT TO DEMAND FULL INFORMATION

The Tyler Kent case has of late been brought to the attention of the American public through various articles either in favor of or against the young American Embassy clerk, such have appeared in the daily Press, others have spread scurrilous inuendoes in the pages and covers of certain magazines. A real campaign has followed the efforts made by Mrs. Anne P. Kent to have her son released from an odious British jail. To the amazement of many, the State Department issued a Press release on September 2nd, 1944 defending its questionable attitude toward Kent and justifying the part it had taken in his arrest, his secret trial before an English court and his subsequent imprisonment following a sentence of seven years at hard labor.

Tyler Kent was appointed coding clerk at the London American Embassy in October 1939, soon after England and France had declared war on Germany on September 3, 1939. His duties were to code and decode messages either sent or received by the Embassy and for which the Department of State used its own secret code.

On May 26, 1940 Tyler Kent was arrested by the British authorities, accused of having communicated the contents of cables which had passed between Mr. Winston Churchill, then First Lord of the Admiralty in the Neville Chamberlain Cabinet, on the one hand and the late President Roosevelt, on the other. The American secret code had thus become the medium of exchange between the two statesmen; it is to be presumed that the American Ambassador to London, Joseph P. Kennedy had been ordered by the State Department in Washington to allow this breach of diplomatic rule.

For his defense young Tyler Kent gave as his reason for having copied, abstracted, and photographed the contents of these cables which all passed through his hands, the knowledge he gathered through the execution of his special duty, namely, that he had discovered Winston Churchill was seeking to overthrow the Neville Chamberlain Government so as to himself become Prime Minister, and, so that he and President Roosevelt were laying the foundations for a succession of circumstances which would eventually draw the United States into the war on the side of Britain against Germany and Russia. Exchange of communications also entailed the discussion of plans for the Lend-Lease policy. Having understood the magnitude of the plans made by the two statesmen and the dire consequences for the American people if they were realized, Kent cast about for a means to wreck what to any loyal American would have inevitably appeared as a conspiracy aimed at the peace and prosperity of every American home. He thought that if the American Congress and the British Parliament, both became aware of the plans being made through the medium of the American Embassy in London, the United States might escape being drawn into the war.

With this in mind, Kent divulged his findings to a Member of Parliament, Captain Archibald Ramsay who had been actively fighting the influence over the British Government of the POLITICAL ECONOMIC PLANNING P. E. P. group and had also prominently fought the supression of individual liberty as granted to every British subject under the Magna Charta. This suppression of individual freedom had been effected by the inclusion of a secret clause in the Emergency Powers granted by the Government, and it was never expected to come to the knowledge of either the Members of Parliament or the British public.

The alleged treachery of Captain Ramsay's secretary having been brought into play, it was assumed that the contents of the communications passing between Churchill and Roosevelt had been revealed to Britain's enemies. There followed the arrest of Captain Ramsay and Tyler Kent; the former has lately been released, but Kent is still languishing in an atrocious British jail. The treatment he underwent at the hands of the British authorities is one long story of cruelty; he had been turned over to them by the American Ambassador Joseph P. Kennedy in defiance and violation of the American laws protecting United States citizens.

However, now that the war in Europe is over and Britain can no longer invoke the necessity of silence which was the basis of her plea for "the security of the realm", American men and women whose homes have been thrown into mourning owing to the loss of members of their families have a right to demand that Congress investigate the Tyler Kent case and bring forth all the details in implications. It is equally the duty of Congressmen to demand that answers be given to a series of questions relating to the negotiations and transactions which took place in the American Embassy in London between October 1939 and May 1940 at which date Winston Churchill finally overthrew Chamberlain and himself became Prime Minister.

The cables which were exchanged between Roosevelt and Churchill number 468.

Their full text must be revealed.

Will a Congressional Investigation Committee direct that the messages and complete series of cables to and from London be produced by the State Department? (To be concluded)

Red Plan to Smash U. S. Latin Business

WASHINGTON,— Liquidate American and British business interests in South America—by government expropriation of foreign property and playing Americans against the British—and then Communism steps in.

This is part of the Moscow plan for the Sovietization of Latin America outlined before the recent secret conclave of international Communists leaders in Mexico City, according to a stenographic report of the proceeding in the hands of the House committee on un-American activities and other Government investigative agencies.

An important member of the Comintern, international directorate for world revolution, told the Red comrades that the financial and commercial missions, established in the Soviet embassy in Mexico City and working with the AMTORG Soviet commercial agency in the United States and Canada, favored the rapid Communist infiltration throughout South America.

COMPETITION

"As fighting tactics for our cause, American industrialists and business men will be placed in competition against the industrialists and business men of the British Empire," he said.

"All the English business interests of Latin America will try to sell the U. S. S. R. through our commercial offices in Canada. All North American interests will do the same in the respective offices in Washington.

"On the other hand, the financial, industrial and business experts of Soviet Russia will travel throughout the American continent accompanied by Canadian, English and American financiers, business men and industrialists.

"Thus our work will be facilitated for controlling the countries of this continent (South America)."

Anglo-American investments— particularly petroleum interests who are fighting Communist infilitration—are among the major obstacles to be swept aside under the blueprint for the Sovietization of South America.

"Our tactics have always been to accuse the capitalists of being imperialists, whether they are or not," explained the Communist speaker.

In men whom men pronounce as ill
I find so much of goodness still;
In men whom men pronounce divine
I find so much of sin and blot,
I hesitate to draw the line
Between the two, when God has not.

Socialists To Win England!—Will Churchill Weep?—What Are Powers Of the "Big Three" ?

By WASHINGTON ADAMS

WASHINGTON, (Special), July 15,— **This writer, along with a majority of Christian Americans, is wishing for a victory for the Conservatives when the British ballot boxes are opened on the 26th.**

But I here and now predict that the red Socialist Laborites will win a majority of the House of Commons, much to the surprise and sorrow of the "upper classes" in both England and America. If the war spirit and Churchill's personal popularity prevent a "red" majority, the latter will probably obtain a plurality, which may enable them to dictate the choice of Prime Minister, as was the case when Ramsay MacDonald was first chosen.

I base my prediction upon the swing to the left by the English masses during the long war, by the strange popularity of the beady-eyed snake of Red Russia, which seems to have "charmed" the British proletariat, and upon the queer coddling and appeasement of the Soviets by the Churchill regime.

The character of the British people has been undergoing a marked change during the past 150 years. Physically they were once largely a "blondish" people, adventuresome, pioneering, scientific and literay. From their small island, with a population numbering from ten to twenty millions, they sent their "blondish", adventuresome, pioneering strains to the number of many millions, to America, Africa, India and Australasia.

The British became by far the greatest colonizing people the world has ever seen. It was the old story of selective migration—outward. Thus the British type became darker and darker at home, and was augmented by an eastern immigration of Jews and darker peoples from the colonies.

Americans were astounded at the "March of Time" film recently in the newsreels, to see how much like the Italians a majority of the Londoners had become, and how much darker on the whole they appeared than the present-day Anglo-Saxon Americans.

This phenomenon was noted by a once prime minister William E. Gladstone, who said, "In my long life I have noticed a distinct darkening of the British type."

If the British go "red" in politics, it will be a sad day for western (white) civilization, as it will give the selfish, cruel and hard Russian rulers a prestige and an urge to conquer politically all of the world, except possibly the United States, Canada and Argentine.

POWERS OF "BIG THREE"

The U. S. A. is governed under a strict Constitution; Britain has no written constitution; Russia has a fake constitution—Stalin and his party, strictly limited in numbers, are supreme in power.

Our Constitution gives our President no power to rule US or anyone else. He is simply an "executive"—to carry out the laws of Congress. It would be an odd anomaly if he should assume powers to rule an European people, by laws and decrees, without a commission from Congress and which powers he does not posses at home.

Stalin, the despot, can exercise autocratic power at home or in Berlin. Churchill can be given the powers of a ruler, by his Parliament. Our Congress has no power to extend Mr. Truman's power beyond those stated in the Constitution.

Just what is President Truman doing in Berlin? What can he do without ratification by our Senate?

Congress should have passed the laws to govern conquered territory and have seen a responsible commission there to administer them fairly.

The President should have stayed at home.

Plight of S. American Jews Alarms Co-Racials in New York

Refugees From Europe Get Rough Reception in Latin America

NEW YORK (Special), July 16.—If Gotham's Jews take the advice of Editor S. Margoshes of the Yiddish language daily, "The Day", they will be calling on President Truman to intercede with South American governments to ameliorate the harsh conditions which our good neighbor Latins are placing in the path of Jews and Jewish immigration.

Dr. Margoshes left New York in April for an extensive tour of the South American countries. His impressions have been published in the lone English language column of "The Day", which appears daily on the front page under the title, "News and Views."

In Columbia, Brazil, the good doctor encountered a fellow-Jew, Froelich, who described himself as the "only Jew" in that town of 12,000 population. "That is," said Senor Froelich, "I am the only Jew who admits to being a Jew. There are about fifty others, not one of whom will admit to being of the 'Chosen tribe.' Most of the other 'secret Jews' pass for Syrians for the most part; some call themselves Germans, some Spanish, etc.

"For some strange reason, the Brazilians admire Syrians, but they have such a hatred of Jews that, once it becomes known that a merchant is a Jew, no one will buy from him or trade with him."

Dr. Margoshes was stumped for a remedy. The Brazinians, he found, drew a sharp "racial" but in some sections they drew a sharp "racial" or "group" line against the Jew.

But over in Bolivia he found the oddest form of **official pogrom** he encountered in all his travels. The Bolivians had no "exclusion" or "Nueremberg" laws. The Jews were allowed to earn money, but the police regularly and systematically **arrested all prosperous Jews and held them for ransoms of from 10,000 to a MILLION Bolivanos ($200 to $20,000) in each case.**

Dr. Margoshes reports from Sao Paulo, Brazil, in "The Day" of July 14, that for years the 6,000 Jews of the land of Bolivia have been victimized by kidnappers with the cooperation of the police.

"Almost daily a Jew is arrested by the police on the vaguest and the most ridiculous, clearly trumped-up charges, to be released only after the police directly or a police intermediary is handed ransom" of the figure just quoted.

The jails are the vilest and most unbearable imaginable, resembling those of Communist Russia, although Dr. Margoshes does not mention Russia). In three days of contact with rats and vermin in complete darkness an inmate goes mad; so the victim's relatives hustle to raise the ransom.

Protests to the President of Bolivia are futile, because, however much he may oppose the practice, he is dependent for his usurped office upon the police, who tell him, if he values his office, he should attend to it and let the local police alone.

Thus the immigration of refugees from Europe is dicouraged.

Two years ago even the multi-millionaire Hochchild was kidnapped and only international pressure effected his release.

On arriving in Peru in April, Dr. Margoshes was amazed to find his co-racials there looking for the world like Peruvian natives—almost black.

"The sun did it," one of them told him. "It blackens everybody and everything. You should have seen me when I arrived two years ago. I looked like a Jew, now you would think I was a mestizo."

A 'Revenge Peace' Brings More War

Dear Mr. de Aryan:

President Truman went to Berlin ostensibly to achieve a settlement of all questions resulting from the European war—but the real reason is that he has found it impossible to keep his pledge to follow the letter of the Roosevelt "foreign policy" without going to Europe to try to find out for himself where he is at.

No one, not even President Truman, apparently knows to what incidental policies President Roosevelt in his private conversations committed this country which was grandly called "conferences between the heads of governments", because as he seemingly imagined himself already **President of the United Nations,** he deemed it superfluous to reduce his "foreign policy" to formal documents to be submitted to the U. S. Congress, the people of the United States, or anybody else.

A vast amount of misunderstanding is the result on one point, i. e. the so extensively propagandized plan of Bernard M. Baruch that the only way to achieve the "spiritual rebirth" of Germany is to cut off her legs and arms and remove her vital organs, to which way of thinking 30 million American citizens of German ancestry are very strongly opposed, as they fully realize that this is not the way to restore order in Germany and prepare for a lasting peace in Germany and Europe. It must be evident to any sane person that such a program of indiscriminate revenge and racial spite can only result in causing the German people (after all, 70 million people cannot be extirpated) to become a coagulated blood clot, so to speak, in the blood circulation of the human race—that through some unforeseen circumstances and at some unexpected crisis may penetrate the heart or brain with results fatal to humanity.

It should at once be realized in the United States that we are confronted not with the question of what Germany deserves, but of what we, the rest of the world, can afford. There are no dividends in dismemberment, no rewards in revenge. A hate peace will breed another world war, not prevent war.

British Empire at Stake in Potsdam Conference

MADRID,— America has relatively little that is concrete at stake at Potsdam.

Britain has everything—the British Empire—at stake in the Neues Palais.

That will not be admitted but no one knows it better than Churchill.

With the aid of America and a large coalition, the Imperial Germany of the Kaiser was defeated and now in five and a half years of bitter war, with the help of a world coalition, including America and Russia, Nazi Germany and Hitler were crushed by Britain.

The aim of Britain's policy of destruction of the German menace and the Italian threat to British naval power in the Mediterranean—was achieved 100 per cent.

NEW MENACE

In place of Germany and Italy—Hitler and Mussolini—there unexpectedly arose a far greater menace on the Continent and in the Mediterranean and they had been and were Allies—Stalin and Communist Soviet Russia with their neo-imperialism.

Two world wars had demonstrated that the British Empire alone could not successfully defend itself against a major power.

An Alliance between Britain and America was not popular.

There came the happy inspiration of a new World League to enforce peace by force.

The San Francisco Conference was hastily called, a charter adopted and a league organized which in effect makes America and the other nations allies of Britain, including even Soviet Russia, the great potential menace to the British Empire.

There is no sentiment or friendship, even among friends in a poker game, where the stakes are high.

It will be a tough game in the Neues Palais. **If Truman and Churchill misplay their cards, ex-Kaiser Wilhelm II and Adolph Hitler may possibly have their revenge.**

—Karl H. von Wiegand

Free Speech in Los Angeles

The Jewish Voice and the B'nai B'rith Messenger, both of Los Angeles, carry inflamatory articles against Gerald L. K. Smith, who is holding popular rallies to expose and protest the Judeo-Communist dictatorship in the USA, hidden behind the bludgeon cry of "war effort unity."

The B. B. Messenger editor forgot himself so far as to blaspheme Jesus Christ, which is nothing new for the Jewish hatelings, since they had him crucified and their Sanhedrin had cursed his holy name and expunged it from their records.

We absolutely hold no brief for Gerald Smith, neither for the type of appeal he carries since we don't believe in The Townsend propaganda nor Ham and Eggs. They are unsound from every angle. Neither do we believe in Smith's brand of Christianity which puts victory over the Japs first and the Kingdom of God, IF, when and as it fits in with the war effort. But when the Attorney General of California joins the Jewish-Communist hatelings to terrorize a peaceful and lawful meeting of native Americans in their own city, then the situation becomes ominous and dangerous.

Kenny, the Jews and Hollywood Communists are welcome to all their ballyhoo in their own hired hall, but they must respect the U. S. A. Bill of Rights of the Smith crowd to have their own meetings, too. When they call upon Jews, Communists and Negroes to picket the Smith meeting they prove that their faith is not placed in American forums of free speech, but in Soviet style interference and oppression of minorities. Under those conditions Gerald Smith is made a martyr in his own country for American traditions and it becomes our duty to stand by his rights or else give up the allegiance we swore to our Constitution.

The editor of The B'nai B'rith Messenger insults every Christian when he wrote: "Gerald Lucifer Kodfish Smith, **another Jesus Christ."**

Why America is Selling Out Civilization

Those who expect anything good to come out of the meeting of the Big-3 Warlords in Potsdam are just as foolish as those who expected anything good to come out of the Newdeal or the San Francisco charter. The whole Roosevelt administration was corrupt. FDR, it turns out to be, was a very sick man, exhausted with nervous, brain and heart strokes, which were kept hidden from the public by a corrupt press, controlled by Jewish and Cartel advertisers and bondholders. During his sickness he was unable to make decisions, so they were made by the Sanhedrin that dominated and inaugurated the Newdeal.

Then FDR was sainted, because he died. And being sainted, now, Truman apes his foreign policy and continues to betray civilization by keeping promises, alleged to have been made by FDR, to the detriment of all the world. But the saint turns out to have been corrupt in office as well as in body and mind, even his own son dares not defend his transactions by which wife and sons made money thru FDR's official position.

Potsdam is Europe's seat of Imperialistic iniquity, and naturally the evil seeds continue to bear fruit. When the Germans placed their faith in saber rattling they sealed their own doom. The reason for it is that the Germans are an admixture of Aryan immigrants with native aborigines and Slav-Mongols, Tartars who inhabited the Russian countries next to them. The Prussian or Po-Russian, is NOT a genuine Aryan product but very much admixed with Mongol-Slavs, as well as the native aborigines who were there when the Aryans arrived. This reliance on force and the sword gave Amshel Meyer his chance to endow the House of Rothschild through the blood feuds carried on by the German princes and their neighbors until even the USA has become a tool in the hands of that murderous world Sanhedrin.

Russia dominates the picture at Potsdam because Russia carries the big stick. Believe it or not, America is afraid of the big stick. It got a shot of hysteria in the arm to fight the Nazis, but that was all, even though Stalin invaded Poland, too. It proves that the intention of the Sanhedrin at no time was to defend the rights of little nations, but was to destroy Germany for the advancement of Russia to make it strong enough to frighten America and England. They have succeeded. Now to appease the Mongol-Slavs, the people of these USA are being bled white to give Stalin all he needs to become strong enough to challenge the world.

Bretton Woods, Dumbarton Oaks, Yalta, Frisco, all of it is designed to use America's wealth and manpower to exterminate European civilization, whatever there is left after American bomb destruction of lives and property, and enthrone Stalin supreme, guaranteeing thru a world bank and a world council that any nation which opposes the Sanhedrin will be promptly liquidated economically and politically.

Because the USA does not uphold RIGHT, does not treat Hitler and Stalin alike for their joint invasion of Poland and the despoiling of the rest of Europe, but heroizes Stalin for doing the very things Hitler did, this nation is dooming itself to meet its own chickens come home to roost, as happened when Japan was being supplied with war material against China.

And the Potsdam 3 will pretend that Stalin was checkmated, while the Sanhedrin will succeed to establish a balance of power that will produce an een greater world war whenever the usurers are ready to finance it and get a tighter control over the people in the whole western hemisphere, from Canada to Patagonia. This war was not precipitated to save Poland, but to milk the USA as dry as possible. Hence the purpose of the war has been achieved. Unconditional surrender of America to the schemes of the Overlords of High Finance and Cartels.

Dear Sir:

I cannot do much—but wish you'd use the enclosed dollar bill to send copies of that or even better issue to the people whose names and addresses I have listed below:
